*To ease the burden*

**Whether she "lives to eat" or "lives to eat" ... the new denture patient must laboriously learn to "eat" again. She must learn new habits of chewing ... new habits of muscular control ... and develop a new sense of "feel".**

To ease the patient's burden of learning to "eat" again, many dentists use and recommend Wernet's Powder during the first few weeks, to help adapt the patient to the carefully fitted dentures.

Wernet's Powder contributes to the maintenance of a perfect valve seal, aids retention and helps prevent slipping under awkward manipulation. It forms a soft protective cushion, which allows the patient to exert pressure at any point of the denture with comfort. And (not to be minimized), light dusting of Wernet's Powder on the new dentures has the psychological effect of increasing confidence that they will be properly retained.

Wernet's Powder means greater comfort and confidence for your denture patients. . . this means greater satisfaction in your skill and ability!

 ADAPTS THE PATIENT TO THE DENTURE

# **ZINC S.S. WHITE SILICATE**

## **A POSTERIOR SILICATE FILLING MATERIAL**

For cervical, proximal, and pit cavities in permanent bicuspid and molars when esthetics is a prime factor. For pits, fissures and deep food retaining sulci (prophylactic odontotomy), and other cavities in deciduous teeth.

It may be used for M.O. and D.O. fillings, but only when there is sufficient bulk of Zinc Silicate and adequate wall support to withstand masticatory stresses. May be used in deep cavities in posterior teeth when it is feared that metal restorations may produce thermal shock.

These cavities should be lined or based properly, however, before inserting Zinc Silicate. For cavities under clasps to avoid electric shock.

## *Introductory Package*

4 Full portion (20 gms. ea.) powders

- 1 ea. No. 16 Dark yellow
- No. 20 Pale yellow
- No. 21 Light yellow
- No. 24 Yellow gray

2 Full portion bottles of liquid (20 cc ea.)

- 1 Trial size powder No. 20
- 1 Trial size bottle of liquid

1 Powder carrier

Value exclusive of trial powder and liquid  
**\$10.00**

**PRICE PER PACKAGE \$8.25**

Single powders (20 gms.) **\$2.00**

Liquid full portion (20 cc) **1.00** per bottle

*Prices subject to change without notice*

**TRY**  
*before you buy*

Each package contains a trial powder and liquid to let you prove the merit of Zinc Silicate. If you like it, you will receive a statement for four powders and two liquids only. Return these in salable condition if the trial proves other than satisfactory. No charge will be made for the trial powder and liquid.

## ILLINOIS STATE DENTAL SOCIETY MEETING

*November 11 - 12*

Pere Marquette Hotel

Peoria, Illinois

- November 6th:** **Kenwood-Hyde Park:** Joint meeting with Northwest Indiana Dental Society at Vogel's Restaurant, 1250 Indianapolis Blvd., Hammond, Indiana. Dr. W. R. Eberle will address the societies on full denture construction. Dinner at 6:30 p.m., meeting at 8:00 p.m.
- November 6th:** **South Suburban:** Regular monthly meeting to be held at the Elks Club, Harvey at 8 p.m. "Control of Periodontal Diseases," illustrated by movies and slides, will be discussed by Dr. Robert Tanis. Dinner at the Green Shingle, 159th and Dixie Highway, Harvey, at 6:30 p.m.
- November 7th:** **North Suburban:** Annual clinic day at the Orrington Hotel, Evanston. Registration 9th Floor. Dr. J. Roy Blayney, Director of Zoller Dental Clinic, University of Chicago, will be the dinner speaker. Details on page 9.
- November 13th:** **West Side:** Regular monthly meeting to be held at the Midwest Athletic Club. Dr. Philip S. Faillo will speak on "Practical Problems in Oral Surgery for the General Practitioner." Slides of the latest developments in plastic surgery will also be shown.
- November 13th:** **West Suburban:** First monthly meeting will be held at the Oak Park Club, 721 Ontario Street at Oak Park Ave. Dinner at 6:30 sharp, speaker at 7:30 with business meeting following. Dr. John B. La Due will discuss "Principal Factors in Full Denture Construction." Those wishing to attend the dinner (who have not purchased season tickets) must call Dr. Howard Buchner, chairman of the Dinner Committee, Euclid 8680, at least one week in advance of the meeting for reservations.
- November 13th:** **Englewood:** Regular monthly meeting to be held at the Hayes Hotel. Dr. W. E. Shippee, Program Chairman, has arranged an Armistice Day program. Capt. Edward Hayes, U.S.N. Intelligence Corps, and Past Commander of the American Legion will talk on his experiences in World Wars I and II.
- November 27th:** **Chicago Dental Society:** Regular monthly meeting to be held at the Palmer House, Grand Ballroom, at 8:00 p.m. Dr. A. H. Bassman of Milwaukee will read a paper on "Gold Inlays and Crown and Bridge Prosthesis."
- December 3rd:** **North Side Branch:** Regular monthly meeting to be held at the Edgewater Beach Hotel. Dinner at 6:30, meeting at 8:00 p.m. Dr. Preston Bradley, pastor of the Peoples Church of Chicago, will speak at the dinner, and Dr. Balint Orban will present a paper on "Usual and Unusual Periodontal Disturbances and Their Treatment."

## **Midwinter Meeting to Be held at Stevens Hotel .**

**Regular Four Day Meeting Scheduled for February 11-14**

The board of directors of the Chicago Dental Society has voted to hold the 81st annual meeting of the Society at the Stevens Hotel beginning Monday, February 11 and ending Thursday, February 14, 1946. The usual meeting pattern will be followed, according to the general chairman, R. B. Mundell. Essays will be presented in the morning and limited attendance clinics in the afternoon. Two half-days will be devoted to table clinics and two general sessions will be held. This meeting marks the return to the Stevens Hotel. The last three meetings were housed in the Palmer House.

The various committees are engaged in making the meeting arrangements. Invitations are being extended to many prominent clinicians and to others not so well-known but who have developed information and technics that will contribute to an outstanding meeting. Extensive scientific exhibits are contemplated and the largest array of commercial exhibits in the history of the Society is expected.

The committee chairmen who will be in charge of the various meeting activities are: Arne F. Romnes, program division; John R. Thompson, essay division; James D. Mershimer, general clinic division; Jerome L. Wilher, health and educational exhibits division; Daniel L. Beshoar, limited attendance clinics division; Robert V. Riemer, motion pictures division; Caesar E. Newman, scientific exhibits

division; Louis Postilion, entertainment committee; Otto L. Mast, exhibit registration committee; Chester C. Blakeley, information committee; B. P. Davidson, ladies' entertainment committee; Godfrey F. Schroeder, publicity committee; Helen Wisnow, reception committee for visiting women dentists; Bradford T. Brown, social committee and Harold W. Oppice, reception committee.

### **ROOM SHORTAGE**

The transportation ban has been lifted and the convention restrictions cancelled but hotel accommodations are expected to be scarce. It now appears that only half the usual allotment of hotel rooms will be available. Those from out of town who expect to attend are urged to make their hotel reservations immediately and not to come to the meeting unless they have a confirmed reservation. Chicago members are requested not to seek room reservations this year and, if possible, to invite out of town friends to stay at their homes. Most Chicago hotel rooms are furnished for double occupancy. Those contemplating reservation will be asked to find a roommate to share their accommodation; single occupancy of a double room will be discouraged. A large attendance is expected and with the curtailed room facilities every means of spreading the sleeping space will be utilized.

## Dr. A. H. Bassman to Be November Speaker

Milwaukee Clinician Will Describe Gold Inlay Technique

Intent upon giving the members of the Chicago Dental Society the best available talent, the Monthly Meeting Program Committee has secured Dr. A. H. Bassman of Milwaukee for the November Meeting. The date is November 27; the place, the Grand Ballroom of the Palmer House. The business meeting is scheduled for 8 o'clock and the scientific session for 8:30. Dr. Bassman will read a paper on "Gold Inlays and Crown and Bridge Prosthesis," a subject to which he has been devoting his time since 1929. He will make an eminently practical presentation, beginning with the elementals and covering all the aspects of good procedure from the diagnosis to the finished product. He will illustrate his methods with such a multiplicity of models that even the back-row critics will be convinced of their own ineptitude.

### OPERATIVE PROCEDURES

The gold inlay has become, without doubt, one of the symbols of good dentistry everywhere, but there are still a few wrinkles that need ironing out. Someone said that the learning of even one short cut in inlay construction is worth the price of admission; and Dr. Bassman will have many new ideas to offer. He will begin with the selection of attachments; describe the operative procedures including the wax pattern (using the direct method) and spend some time

on the investing and casting processes. Impressions will come in for consideration, followed by a demonstration of the metal model technique. Bridge pontics, with all their ramifications, will be stressed and every detail of construction illustrated. An important feature, often left out by clinicians, will be a discussion of the cementation of restorations. And, finally, a method of attaining the right articulation, without which no inlay or bridge can possibly give satisfaction, will be demonstrated.

### ESSAYIST

Dr. Bassman is a graduate of Marquette University Dental School, 1927, and has taught crown and bridge at that institution for nine years. He has given clinics from coast to coast, and appeared in the clinic section of the American Dental Association Meeting in Cleveland a few years ago. He is a fellow of the American College of Dentists and has held a number of important posts in organized dentistry. He was chairman of the Clinic Committee for the 1939 A.D.A. Meeting, served as chairman of the Wisconsin State Society Clinic Committee in 1941 and as chairman of the Program Committee of the Milwaukee County Dental Society in 1943. He has written a number of magazine articles championing his direct inlay technique and can well be considered an authority on crown and bridge prosthesis.—James H. Keith.

## DENTISTS NEEDED ON THE HOME FRONT

The Board of Education in Chicago questioned the advisability of installing a dental health educational program in three Chicago high schools at the present time because it did not want to create a desire for dental service only to find that there were not enough dentists to supply the demand. The Board members know how hard it has been to get dental appointments.

The shortage of dentists on the home front is serious, in some areas it is desperate.

At the beginning of the war patriotic appeals were made to the dental profession to obtain the necessary quota of officers for the dental corps. Procurement and Assignment Service and the dental societies were very active in their efforts to get dentists into the armed services. This was as it should be—there was a big job to do and dentistry did it with distinction.

Now the war is over and the same zeal should be used to get these highly trained men back to the areas where they are so badly needed.

We realize that there is dental treatment still to be done for the military and that the good that has been accomplished should not be jeopardized by sudden and drastic curtailment of personnel. But the peak for dental service has been passed and dentists should not be kept idle when there is such an urgent need for them among the civilian populace. The dental corps was expanded to rehabilitate men for combat duty; the task now of preparing them for civilian life should not be great.

Ugly rumors are circulating as to why a more speedy and equitable release of dentists is not forthcoming. How much credence can be placed in these rumors is difficult to judge. The Chicago Dental Society has directed letters to high officials in Washington seeking enlightenment on these matters.

Organized dentistry saw the necessity for an adequate dental corps at the beginning of hostilities and it bent every effort to secure that end. It is cognizant of the tremendous need that exists on the home front and it should exert the same effort now to see that a just placement of dental personnel is rapidly established. This opinion is meant to be neither unpatriotic nor ungrateful but democratic.—*Robert G. Kesel.*

# NEWS AND ANNOUNCEMENTS

## LABOR STRIKE AFFECTS FORTNIGHTLY REVIEW

The Chicago Dental Society was unable to publish THE FORTNIGHTLY REVIEW during October because of a printers' strike. The October 1 and 15 issues have been cancelled and Numbers 7 and 8 of Volume 10 will not appear. The labor difficulties have been adjusted and the November 1 issue is being printed following the customary sequence.

## ILLINOIS STATE MEETING NOVEMBER 11-12

The Illinois State Dental Society will hold a two day meeting on November 11 and 12 at the Pere Marquette Hotel in Peoria. The program will combine the business meeting with scientific sessions. This curtailed meeting replaces the annual convention regularly held in May which was postponed this year because of travel restrictions.

Important amendments to the constitution will be voted upon at the business meeting and the transition in officers will be effected.

## VETERANS SERVICE COMMITTEE APPOINTED FOR C.D.S.

By authorization of the board of directors, President J. B. Zielinski has appointed a Veterans Committee consisting of James H. Keith, chairman; E. P. Boulger, G. E. Cartwright, F. E. Gillespie, G. M. Hambleton, J. C. McGuire, I. A. Oveson, S. M. Rakow, L. T. Rowland, Horace J. Tharp and C. C. Blakely.

The committee is organized at the request of the Military Affairs Committee of the Illinois State Dental Society to cooperate with it in formulating a program to guide and assist in the rehabilitation and reestablishment in civilian practice of veterans of World War II. The

state committee in turn was organized at the suggestion of the War Service and Post War Planning Committee of the American Dental Association. Subcommittees consisting of three men are being appointed for each branch of the Chicago Dental Society. Problems concerning war veterans should be referred to this committee.

## CHICAGO HIGH SCHOOLS INSTALL DENTAL PROGRAM

The Board of Education and the Board of Health of the city of Chicago are cooperating with the Chicago Dental Society in a dental health educational program for the pupils in three Chicago high schools. The schools selected for the pilot program are Amundsen, Farragut and Parker. The student enrollment in these schools is Amundsen, 2,005; Farragut, 1,921; Parker, 1,889.

The Board of Education is devoting two full periods each semester to a discussion of the fundamentals of dental health. Charts, slides, motion pictures and literature will be furnished the schools by the Chicago Dental Society. Pupils will be requested to have their dental defects corrected, and their mouths put in a healthy condition. Each pupil will be given a parent notification and dental examination card. This card will urge parents to send their children to the dentist for examination and care. The card contains two forms—A and B. Dentists are requested to examine the child's mouth and record the findings on form A. The child is to return form A to the teacher for the classroom record. When the child's dental service is completed, the dentist will sign form B. The child will return form B to the teacher for the classroom record.

The Society members are urged to give an early appointment to all high school children who come to them with one of the examination forms. It is pointed out

by the Committee on Dental Health Education that the success of this project will depend upon the wholehearted participation of the dentists, the schools, the pupils and the parents.

### **DR. CARTWRIGHT APPOINTED TO STATE HEALTH POST**

Dr. Glenn E. Cartwright has been appointed a member of the Advisory Committee to the Division of Industrial Hygiene in the Department of Public Health by Governor Green on the recommendation of the officers of the Illinois State Dental Society. Dr. Cartwright is the only dentist serving on the committee and this is the first time that dentistry has had a representative acting in this capacity.

### **U. S. SUPREME COURT UPHOLDS THE DENTURE LAW**

The United States Supreme Court has refused to hear an appeal from the decision of the Appellate Court in regard to the suit against the U. S. Dental Company for violation of the mail order denture law. The Court by its action upholds the constitutionality of the law and the defendants Voyle Johnson, Margaret M. Johnson and Mary E. Layton stand guilty. The decision was rendered on October 8, 1945.

### **NORTH SUBURBAN CLINIC DAY NOVEMBER 7**

The North Suburban branch will hold its annual clinic day Wednesday, November 7, at the Orrington Hotel in Evanston. Registration will be conducted on the 9th floor. Also on the 9th floor in the ballroom the manufacturers' exhibits will be displayed. In the afternoon lectures will be given by Dr. Loren Sayre on "Fixed Bridgework, As It Should Be," and Dr. E. W. Skinner on "Recent Development in Dental Materials." L. V. Stephenson and W. T. Poyer will act as topic leaders. Dinner will be served at 6:30 and the dinner speaker is to be Dr.

J. Roy Blayney, director of Walter G. Zoller Memorial Dental Clinic University of Chicago. His subject will be "Evanston Fluorine Study; Methods to be Employed."

### **DENTISTS NEEDED IN GOVERNMENT HOSPITALS**

The Civil Service Commission has announced that it is conducting an extensive campaign to recruit dentists for service in hospitals and clinics under the direction of the Veterans Administration and U. S. Public Health Service. The needs of the Veterans Administration are particularly urgent at this time because of the rapid increase in the number of patients being cared for under their hospitalization program.

The salary for the positions is \$3,640 a year for a 40-hour week. Overtime is paid for all authorized time worked in excess of 40 hours a week.

Applicants must have been graduated from a dental school with the degree of D.D.S. or D.M.D., and must be licensed in a State or Territory of the United States or in the District of Columbia. In addition, they must have had at least 1 year's dental internship or 1 year's active practice as a dentist.

Qualified persons who wish to enter the Government service are urged to apply at once. Announcements containing full information regarding the positions, and application forms may be secured at first- and second-class post offices, from the Commission's regional offices or direct from the U. S. Civil Service Commission, Washington 25, D. C.

### **CHICAGO DENTAL ASSISTANTS ASSOCIATION**

The next regular meeting of the Chicago Dental Assistants Association will be held on Thursday, November 8, at 8:00 p.m., in Room 529 of the Pittsfield Building. The program will be based on dental health and patient education. Through the courtesy of the Committee on Dental Health Education of the Chicago Dental

Society, the instructive motion picture "The Mortons Make Some Changes" will be shown, followed by a round table discussion.

The first study club meeting was well attended by forty members who received Dr. Clyde West's discussion and instruction on the first fundamentals of dental assisting with great enthusiasm. The second class meeting will be November 19. —*Jane Neunuebel, Publicity Chairman.*

### **C.D.S. OUTING DRAWS GOOD CROWD**

A perfect day brought out approximately 150 members of the Chicago Dental Society on September 19 for the annual outing. The event was held at Westward Ho Country Club which provided excellent facilities for golf and entertainment.

A large number of prizes obtained under the capable direction of Pete Wlodkowski, chairman of the golf committee, were awarded following a fine chicken dinner.

President Joe Zielinski presided at dinner and called upon Bob Humphrey, chairman of the insurance committee, to discuss the sickness and disability insurance program that the Society is sponsoring. Col. Arnett Matthews and Lt. Col. Spence A. Hutt made interesting remarks concerning military affairs.

Mr. Dittweiler, a guest, won the low gross golf prize with a score of 74. The President's Cup was won by Thomas P. Cavanaugh, who shot the low gross for members, a 76. The prize, a brass cuspidor, looked none the worse for wear after a year's sojourn in the office of Rodney Marks, its first winner. Other golf prizes were won by Rice, Grunt, Whitson, Wolfe, Quigley, O'Grady, Christopher, Sappe, Col. Hutt, Stordock, Warren, Kremer, Marks, Fisher, Markle, Olsson, Theis, Arkzbaeker, Goldman, Tilley, Clark, Couch, Lynch, Kalanowski, Radix, Fowler, J. Hospers, Weir, Adams, Pecaro, Sandquist, and Hurlstone. High gross prizes were awarded to Reilly, Mariner and Flick. Door prizes

were won by Lebow, Mariner, Wlodkowski, Theis, Scherson, Besbier and Whitson.

### **MISSOURI REGULATES "DR." PREFIX**

The legislature in the state of Missouri adopted a measure known as the "Dr. Prefix Bill." It prohibits "any person licensed to . . . practice the curing, healing or remedying of ailments, defects or diseases of body or mind from using the prefix 'Dr.' in connection with his name . . . without affixing . . . suitable words or letters designating the degree held by such person or the particular type of practice in which such person is engaged."

In order to comply with the law, all members of health professions will be required to make appropriate changes in their stationery, cards, signs or office name plates. Correct legal wording, for example, would be: John Smith, D.D.S. or John Smith, Dentist. The law also applies to physicians, osteopaths, chiropodists, optometrists, chiropractors, veterinarians and to any other person who professes to practice the healing art and who uses the prefix "Dr."

### **ENDODONTISTS TO HOLD MEETING FEBRUARY 14-15**

The executive committee of the American Association of Endodontists have voted to hold the annual meeting of that organization immediately following the Midwinter Meeting of the Chicago Dental Society. A dinner will be held on Thursday evening, February 14 and Friday, February 15, will be devoted to papers and clinics. All sessions will be held in the Stevens Hotel.

Several motion pictures on root canal therapy that have been developed by members of the association will be shown. Dean Maynard K. Hine of the University of Indiana is chairman of the program committee and Dr. S. D. Green of Chicago is chairman of the local arrangements.

# What Now?

By Frederick T. Barich

My wife says that the fellow who takes care of our place is a veritable genius. His presence is ever felt in a general sort of way yet in no way is he obnoxious. In fact, the contrary is the case because it is comforting indeed to know that everything down to the minutest detail will be taken care of at precisely the right moment. My better half states further, that this guy had missed his calling because he not only is a jack-of-all-trades but is their master as well. In some truly important field he might have gained international recognition with subsequent immortality with the impending years. My wife you see, is an extremely keen observer and a keener analyst of human potentialities. In late autumn, when gardening activities have reached an impasse, all tools and implements are cleaned, greased and put in their proper places until early spring when they are gently aroused with their

age-old activities. At this same time all screens and screen doors disappear from their summerly positions and sparkling clean storm windows and doors take their places to resist the icy onslaughts of old man winter. After the deciduous leaves have served their purpose in the fall color scheme, they flutter toward mother earth for ultimate coalescence with her component parts. This privilege is not allowed them because they are raked, gathered, and burned at precisely the right time. During this same period all flower beds are carefully prepared and made to serve their occupants throughout the long cold hibernation period. Within the abode all drippy faucets are rendered leakless, a new shelf added to increase the storage facility, needed minor repairs are made, the furnace is checked and oiled and any necessary painting is finished to the satisfaction of the most critical observer. If any drafts develop during those long winter months, the caulking and weather stripping is checked and the offending areas are promptly blocked with the essential material. When the snow falls heavily or drifts wildly, the normal approaches and exits are cleared before anyone enters or leaves the house and are so kept until old sol is potent enough to chase old frosty whiskers farther north. The household appliances are never idle for want of a broken spring, worn out part, blown fuse, loose connection or broken cord. Sometimes it appears that the needs of these various mechanisms are anticipated; so before the breakdown at a crucial time, it is nipped in the bud, so to speak. As soon as the snow shovel is discarded for the spade, the coverings are removed from the flower beds and the inert content is turned over with the spading fork. More fertilizer and sand are added in this process. When it is evident that no more frost will descend in the area, the storm windows and doors are replaced with freshly washed and painted screens. The storm sash are checked, painted if necessary, and stored in the stalls where the screens had reposed all winter. All trees, shrubs and evergreens are trimmed or pruned, the lawn fed and reseeded, and new and old bulbs and new plants and seeds spotted in the artistically correct places in the flower garden. The whole is then nurtured and methodically cared for throughout the entire growing season. My wife, at regular intervals, reiterates that this fellow is a genius and at least once in my life I am forced to agree with her because—I am the guy. As Kretschmer would say, "Who wants to be a genius?"

# NEWS OF THE BRANCHES

## NORTHWEST

Before going to Champaign to arrange for accommodations for their daughter, Beulah, who has enrolled at the University of Illinois, the Ben Davidsons drove to Danville to engage in their favorite pastime, contract bridge. . . . Hugh Larkin, who has fully recuperated from his recent operation, is looking healthy and ready to turn handsprings. We know his many friends, especially members of the Trostrud Social and Benevolent Association, are glad to hear that he has resumed work. . . . Henry Gierat, stationed at Great Lakes, has been promoted to the rank of lieutenant commander. . . . Lt. Bruno Stwertnia was last heard from in Okinawa. . . . Capt. Corny Lewandowski visited here recently. His family has been with him at his base near Great Falls, Montana. . . . Joe and Jean Ullis spent a week at Sister Bay, Wisconsin, midst the restful scenery of Door county. . . . W. C. Griffin took a week off on his medic's orders to relax a bit. . . . This fellow Coleman has a lot of vim and vigor for a guy nearing three score and a half. He's got more pep than a young rooster. . . . Remember the meeting on Friday night, November 2.—*Thad Olechowski, Branch Correspondent.*

## WEST SIDE

Plan now to attend the next meeting at the Midwest Athletic Club. Dr. Philip S. Faillo will be the essayist. . . . "Shiver my timbers," I cannot take this type of weather after tasting some of the tropical variety in the South Pacific. . . . Wednesday, September 12, was alumni day for the University of Illinois. An immense crowd attended the gathering held at Itasca Country Club. So many Westsiders were present that we can't mention names. However, most everyone participated in either the outdoor or indoor athletic events. . . . We hear that Harold Epstein and Nathan Potkin are artists at folding

three cornered pants and are anxious to compete with other fathers in that activity. . . . Capt. Max Chubin is now sweating it out in the Marianas. The thermometer records 130° in the shade, if you can find it.—*Arthur D. Tessler, Assistant Branch Correspondent.*

## WEST SUBURBAN

Bob Mulholland is on terminal leave at present and enjoying the company of his wife and daughter. Bob just about holds the record among our members for length of Army service, with fifty-five months to his credit, twenty-two of which were spent in the South Pacific. Fatigue and a tropical sun combined to put him in a hospital last December. He has received the Bronze Star and a unit citation in recognition of his services as division dental surgeon major. Eddie Vonesh, who was Bob's assistant for three and one-half years, has been promoted to the rank of major and is now in Tokyo. Walter Zipprich was also with them in the South Pacific for more than a year. We regret to report that Walter's young daughter passed away a short time after his return home and we extend sympathy to him and to Mrs. Zipprich. . . . Major Bill Tolar, another man with a long service record, managed to get a few days away from Fort Bliss to spend at Tabor Farm, Michigan. . . . John Van Den Brink, formerly of Villa Park, is now practicing in Elmhurst. We'll be looking for cigars at the first meeting this fall because we understand that a baby girl has been added to John's family. . . . Fred Schulz, also of Elmhurst, just returned from Manitowish, Wisconsin, where he spent some pleasant hours fishing and resting. . . . Werner Gresens chose Williams Bay as a vacation spot and found it most satisfactory. . . . Perhaps Al Kunc had the right idea—he spent a month at Eagle River. Said he needed that much time this year. . . . W. O. Fellman also wants to get in on the fishing laurels. He and

his brother fished High Lake at Woodruff and claim catches of 32 and 34 inch muskies. . . . See Page 4 for details of our first monthly meeting, November 13.—*Richard Anderson, Branch Correspondent.*

#### ENGLEWOOD

All members and especially released service men are requested to be present to hear Capt. Edward Hayes, U. S. Navy, Past Commander of the American Legion, discuss his experiences in World Wars I and II at the November 13 Armistice Day meeting. Capt. Hayes, who is a lawyer in private life, has been on all war fronts except Burma. . . . Joseph Jun, discharged from Percy Jones Hospital August 1, spent a month at home with his family. He is now at Miami, and is to be sent to Camp Grant for reassignment. . . . Edmund Hoyne is back after a month of vacationing. He visited Douglas Jamieson, orthodontist in Detroit, with Mrs. Hoyne and daughters Doreen and Edith. He also crossed into Canada to get a few whiffs of our northern neighbor's "ozone." . . . Major Val Siedlinski, chief of dental service of the 140th Evacuation Hospital, after four years of service, is spending a month with wife Lottie and daughters Apollonia and Valora. On August 22 his ship left Marseilles for Japan but after one day out orders came in to change course and head for the U. S. A. Val will report to Camp Grant for reassignment. . . . Lt. Col. Leon M. Stern tells our Van Dam that he recovered from "Jungle Rot." He recently left Hoss General Hospital, Santa Barbara, for Camp San Luis Obispo, California, which serves as a separating unit. He is in charge of dental service there and expects the assignment to last some time. . . . To Detroit went our correspondent Van Dam for some business of a dental nature and some relaxation. . . . Although the war is over, some of our "hunters" are polishing their "armor"! No matter how little or much you "bag," please make a report to Van Dam at Pullman 4488.—*Boles G. Gobby, Assistant Branch Correspondent.*

#### KENWOOD-HYDE PARK

Be sure to attend our annual joint meeting with Northwest Indiana Dental Society at Vogel's Restaurant in Hammond, Indiana, on November 6. . . . Reed Thornton has returned from his Lauton, Michigan, farm after selling his grape crop to a soft drink outfit and his barley to a Kentucky distiller. . . . Neil Rogers recommends Jan Struther's "Mrs. Miniver." The twenty-fifth chapter, beginning with the very first verse, her observation of a visit to her dentist, is an education sayeth the benedict. . . . George and Mrs. Christopher conferred with their architect, obviously an addition to their house is planned. . . . George Balhatchett, past president, passing through Chicago, spent considerable time with Dave Phillips, discussing Dave's inlay lock. Incidentally, George is a papa. Wee Bonnie, born July 19 at Sebring, Florida. . . . Capt. Joe Scudder is on his way to Tokyo to teach Hirohito and his staff how to kick a "punt." This, it is hoped, will teach the xanthic Nips to overcome their "bombaphobia." . . . Emanuel Katz was describing his pet inlay technic to a group of sixth floor D.D.S.'s. Sam Marcus promptly exposed the weird consequences of such a procedure, whereupon Emanuel seized Sam's beautiful lamp stand and tied it into a graceful knot. The mute evidence still stands. . . . Barney Nathan arrived a day later, after fishing wall eyed pike up Canada way. . . . Larry Mullineux spent considerable time in southern Michigan and northern Indiana this summer. He says the only way to double your bank roll is to fold it and put it back in your pocket. . . . Clarence Davies summered at Rice Lake, Wisconsin, as usual. Young Davies is a senior dent, and appears as sincere and capable as his Dad. Congratulations, Clarence. . . . Milton Braun is on the Island of Tanapag, just off Saipan. Milton has been at the shooting end of this war a heck of a long time. . . . Roy Eberle has just returned from California after a stay of three months. Another good clinician available. . . . Elwood Mc-

Knight's Intelligence reports with enthusiasm that Elmer Ebert and B. Z. Black are not doing so well with their "Society for the Prevention of Rugged K.-H. P. Meetings." . . . Arnold Frisch is now comfortably located in his new offices in the Hyde Park Bank Bldg.—*Walter R. Scanlan, Assistant Branch Correspondent.*

#### NORTH SIDE

If you have not already checked the following dates for future meetings be sure to do so at once: Monday, December 3; Saturday, January 19, 1946 (Ladies Night); Monday, February 4; and Monday, April 1. . . . A. P. Lombardo spent four weeks at Wassockey, Wisconsin, doing some "reel" fishing. His family enjoyed two and one-half months there. . . . L. E. Penberthy has returned from Wisconsin where he, too, has been fishing. . . . Frank Hurlstone is back at his office after doing some fancy driving down the fairways. . . . Frank Fabian has returned from Marcus, Iowa, after absorbing some real vitamin D on his cousin's farm. . . . O. A. Helmer has been entertaining the mayor of Mexico City, Attorney Francisco Doria Pez, and Dr. Arturo Irabien Rosodo. The latter is professor of oral surgery at the National University in Mexico City. While these men were on O. A.'s boat the professor fell into the lake. He promptly demonstrated exceptional swimming ability. . . . J. V. Linder vacationed the month of August at Algonquin Park, Ontario, Canada. Mrs. Linder and he also celebrated their twenty-fifth wedding anniversary at Niagara Falls, flying back to Chicago. . . . Robert J. Heurlin had very good luck fishing at Grand Rapids, Minnesota. . . . Walter Christiansen had the misfortune to break his wrist so took a trip to California to see his son, a cadet in the Merchant Marine. . . . Daniel Peterson is certainly the "skipper." He and his forty-foot sailboat have been winning races all summer. They won the Michigan City race in their class, the Saugatuck race, and the Mackinac race. Dan met his family at Mackinac, and

they returned home with him. His crew consists of six men, and his boat is kept at the Columbia Yacht Club. . . . I have received the following news from Dean R. W. McNulty of Loyola University Dental School. Robert MacBoyle, having served as a faculty member for forty-five years and being a full professor since 1914, retired October 1. Our good friend Harold Oppice, who has been on the faculty of the school since 1942, succeeded Robert as professor and head of the department of Crown and Bridgework. . . . Capt. Berthold Schulz is at Camp Campbell in Kentucky. He says it has been very warm there, and he fortunately had Wednesdays off. . . . Capt. Julian Link took a patient from Fort Sills out to California. He had a very enjoyable trip.—*Russell G. Boothe, Branch Correspondent.*

#### NORTH SUBURBAN

November 7, January 14, March 11 and April 8 are the dates to be marked for branch meetings. Details of our annual Clinic Day, November 7, are included in the News and Announcement section of this issue. . . . In one week Frank Trangmar has accumulated sufficient flying hours to permit his solo. Everyone is waiting breathlessly for the big event. This apparently includes Frank. . . . Willard McEwen will be looking for office space about the first of the year. He is in Jacksonville, Florida, awaiting release from the Navy. . . . Otto Brasmer had a letter dated September 2 from his son, Tim. He was aboard the battleship Oklahoma in Tokyo Bay. . . . Al Larson has a new daughter born August 4th and named Breda Jean. . . . Harold Cook just returned from his vacation but did not look too well rested. No explanation has been offered. . . . Zenas Shafer has gone to Door county, Wisconsin. Information received at his office was to the effect he had gone north or south, depending on the weather. No one is going to disturb Zenas. . . . Charlie Freeman has discontinued his practice to give his undivided attention to N.U.D.S.—*Henry Conley, Branch Correspondent.*

# CHICAGO DENTAL SOCIETY

## Alphabetical Roster of Membership

### 1945-1946

In this issue the balance of the membership roster of the Chicago Dental Society is presented. Please check your name for spelling, address, and branch listing and forward any corrections to the Secretary, State 7925. Retain this issue for future reference.

## Contributors

Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts, if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the Society are solicited.

Forms close on the third and eighteenth of each month. The early submission of material will insure more consideration for publication.

## Ethics Committee

Folmer Nymark, Chairman 1946  
Lester E. Kalk 1947  
Walter J. Nock 1948

## Applications for Membership

The following applications have been received by the Ethics Committee. Any member having information relative to any of the applicants, which would affect their membership, should communicate in writing with Dr. Folmer Nymark, 4005 W. North Avenue. Anonymous communications or telephone calls will receive no consideration.

## Active Members.

Borg, Elfred L. (C.C.D.S. 1925) North Side, 6205 Broadway. Endorsed by J. Joseph Cox and Donald B. James.

## Columbia Rubber MODEL FORMERS

**Make Neat Bases on  
Your Study Models**

**J**UST pour plaster or stone into Model Former, mount anatomical cast and let set. The soft flexible rubber permits easy removal of model, which comes out with a perfectly smooth, symmetrical and finished base. And it takes less time to make than handformed bases.

Upper and lower models made in these formers occlude automatically!

Price per set, 1 Upper and 1 Lower, \$3.00

**Make Study Models Regularly—  
You Need Them as You Do X-Rays**

Send for our 16-page Illustrated Price List

**COLUMBIA DENTOFORM CORPORATION**

131 East 23rd Street, New York 10, N. Y.

**American** hands . . .  
proud hands . . . able, experienced hands . . .  
doing precision restoratives . . .  
for friends of ours.

*They tell . . .*

*that Handsome is as handsome does . . .  
and how do you win back your profitable  
patients if their replacements do not fit?*

**J**UST wanted to know. Just curious . . .  
. . . for, usually, a dentist *doesn't* win  
them back when he loses them. You  
don't get the chance. When *they're* dis-  
satisfied, they never tell *you* a thing. But  
dissatisfied patients tell their *neighbor-*  
*hood*, and *their friends*, and *all their*  
*families*.

How completely silly, then, to give them  
less than the finest. How *smart* to use  
*American* precision-made replacements.

For, *American* replacements fit. They  
*look good* and *they fit* the first time you  
place them carefully, slowly, prayerfully,  
into your patient's mouth . . . and your  
patient is satisfied.

. . . for handsome is as handsome does.  
That's our humble belief. It guides our  
work. It *measures* it.

\* \* \*

If *you'd* use *American Service*, use it  
regularly . . . *you'd* make more money,  
too. The replacements we'd make for  
you would be good-to-look-at . . . they'd  
fit your patients comfortably . . .

. . . and those patients would be *profit-*  
*able* patients for you, for there'd be no  
make-over, no time-consuming puttering  
to make replacements fit . . . and your  
patients would come back to you regu-  
larly, over the years, and they'd tell their  
friends and their families of their appre-  
ciation of your great skills.

DENTURE ACRYLIC  
Monomer and Polymer

## A PURE ACRYLIC *created to be used with a new Technique*

to produce end results in the construction of acrylic denture, besides saving  $\frac{1}{2}$  of the dentist's time in his laboratory and eliminating make-overs and costly tooth breakage, effecting definite savings in both the dentist's time and worry.

Easiest, most simple and fastest technique in the making of perfect acrylic dentures—practically 100% perfect reproductions.

To a limited number of dentists we are offering the use of this patented technique . . . so vastly superior to most other methods in producing PERFECT results. Be the FIRST with the LATEST!

NEW PATENTED TECHNIQUE . . . covered by Pat. No. 544557 . . . easy to process, reproduces all details of the mold and keeps its form and color indefinitely.

TOUGH and STRONG yet resilient, dense, non-porous. Of course it is odorless, tasteless and insoluble in mouth fluids. It meets all the requirements for the ideal acrylic denture troubles for you and your patients. That is why we say—ORDER BEAUTE-TONE . . . try it . . . and judge for yourself!

BEAUTE-TONE MONOMER, Liquid—Bottle 8 oz.

BEAUTE-TONE POLYMER, Powder—Pkg. 16 oz.

What can WE do for you that YOU CAN'T do? We act as your SALESMAN, with these faithful, ethical SMILES advertisements in the Chicago Tribune regularly . . . telling folks HOW MUCH THEY NEED YOU.

They send more patients to you, and you never need lose a patient through inability to pay, for Smiles, Inc., provides the money. Read about it below

## DOCTOR . . .

Is "being a good sport" costing you time and money?

Are you working "in installments" on some patients' dental work

BECAUSE THAT'S THE ONLY WAY THEY WANT TO PAY for it?

YOU NEEDN'T!

You can COMPLETE those long drawn-out jobs NOW . . .

finish them up in normal time, end the bothersome bookkeeping,

and get **YOUR FEE PAID TO YOU IN ADVANCE . . . by using the SMILES System!**

LOOK HOW the Smiles System smooths the way for you: it gives your patients the convenience they want, that of paying their dentistry bills in small monthly payments, out of income. . . .

YET YOU DON'T HAVE TO CARRY THEM on your books, you don't have to do their dental work "in dabs," you don't have to wait for your money. . . .

AND YOU GET PAID YOUR FEE IN ADVANCE.

THAT'S HOW the Smiles System works, how it's helping other dentists to make more money . . . easier. It can do the same for you.

HERE'S ALL YOU DO. Tell the patient who hesitates over your proposed fee . . . that he can take care of it in small monthly amounts, out of income, if he'd rather. Show him how to fill out the simple Smiles contract right there in the privacy of your own office. Mail that contract to us.

WHEN IT'S ACCEPTED, we send you your fee immediately. The financial part of the job is now

**Smiles, inc.**  
OF ILLINOIS

We have made the following arrangements with the Chicago Dental Society: Whenever a patient calls us asking for a dentist, we contact the Society and they furnish us the names of three members, selected in rotation according to the Postal zone. We will then give these names and addresses to the patient. No recommendations are made by the Chicago Dental Society or by Smiles, Inc.

Remember this:  
**YOUR dentist is  
your FRIEND**

If someone could give you back your confident smile, if someone could take away your nagging, throbbing toothaches, could stop the seeping poisons from decay that make you feel tough all over . . . wouldn't you call THAT person a real friend? Then your dentist is your friend. For, he can do those things for you, with modern skill and gentle, soothing, kindly ways. He's spent earnest years with scholarly men, learning to help you. He'll even tell you of an easy way to pay for all the dentistry you need, so you won't have to delay.

Ask him how to get complete dentistry NOW and PAY out of income, the SMILES way, over a year, with NO down payment, first payment in 30 days. All necessary arrangements can be made in the privacy of your dentist's own office.

**Smiles, inc.**

completely off your shoulders. That's your go-ahead. You may then start and finish that patient's dental work as soon as you choose. (And Smiles, Inc. assumes all losses, all bad debts, all collecting.)

THINK OF US as part of your own organization, geared to take over the financial burdens you don't want to worry about. Phone Franklin 1593 and ask us for the interesting details.

25 E. Washington St. • Chicago 2, Ill. • FRA. 1593

## **MAKING YOUR WISHES COME TRUE . . .**

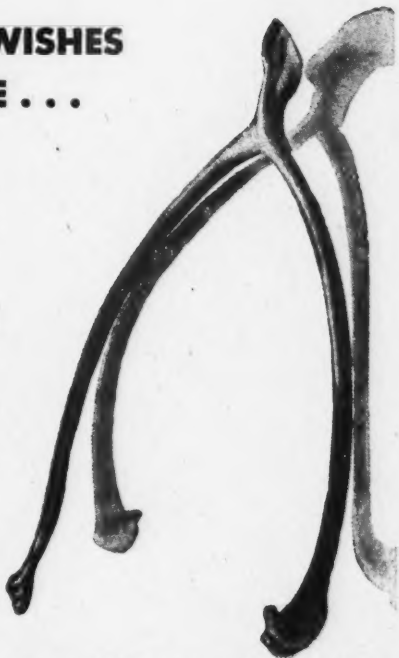

One wish has been fulfilled. Won by 3½ years of deadly struggle. With God's help, we have prevailed.

Now we have a chance to make another wish come true. For most of us, the outlook is a bright one. If we will simply use the brains, the will, the energy, the enterprise...the materials and resources...with which we won our war, we can't fail to win the peace and to make this the richest, happiest land the world has known.

Your wishes have been wrapped in that bright outlook. Your wish for a cottage by a lake. For your boy's college education. For a trip you long to take. For a "cushion" against emergencies and unforeseen needs.

You can make those wishes come true by buying bonds today...buying them regularly...and holding on to them in spite of all temptation.

There's no safer, surer investment in

the world. You can count on getting back \$4 for every \$3 you put in—as surely as you can count on being a day older tomorrow.

So why not be patriotic and smart at the same time?

**FULFILL YOUR WISH—BUY EXTRA BONDS  
IN THE GREAT VICTORY LOAN!  
CHICAGO DENTAL SOCIETY**

*This is an official U. S. Treasury advertisement— prepared under auspices of Treasury Department and War Advertising Council*

YESTERDAY RETURNETH NOT  
TOMORROW MAYBE, COMETH NOT  
THIS HOUR ALONE IS THINE  
WASTE IT NOT!

*The admonition of the ancient craftsmen has a distinct application to present-day Dentistry.* • • •

With the ranks of the Profession still depleted and laboratory staffs reduced to a minimum by the continuing needs of National Service, *time is yet the most critical element of today.* Steps must be quickened . . . materials and procedures must be selected for speed without sacrifice of efficiency.

Dee Gold provides a definite answer to this problem. It saves valuable minutes and hours, avoids the irritation of "come-back" visits, speeds laboratory service, and enhances the finished results . . . functionally, esthetically, and in durability.

• • • *There is a specific Dee Gold to meet every dental requirement . . . including that of economy.*
